

Symposium of the International Association for Boundary Element Methods

**First Author<sup>1,\*</sup>, Second Author<sup>2</sup>, Third Author<sup>1</sup>**

<sup>1</sup>Department of Mathematics, University, City, Country/Region

<sup>2</sup>Department of Engineering, University, City, Country/Region

\*Email: me@my.domain

**Keywords:** first, second, third

## 1 Instructions for preparing abstracts

All papers for IABEM 2024 should be written in English and prepared using the IABEM L<sup>A</sup>T<sub>E</sub>X templates. Preparation instructions are given in the file `iabem-example.tex`. Please put your text only in the places indicated as the files may be processed automatically. You will also require the macros file, `iabem-macros.tex`, that specifies the layout. The length of your abstract must be **at most one page** including bibliographical references. References should be given at the end of the paper in a `thebibliography` environment and without using `bibtex`. Citations are inserted using the `\cite` command, such as [1–3].

## 2 Submission

Abstracts in PDF format and the source files should be sent to `iabem2024@outlook.com`. Your submission will be confirmed later.
